DOCTORAL STUDENTS DENSITY (BY UNIVERSITY)

Building the future of work together

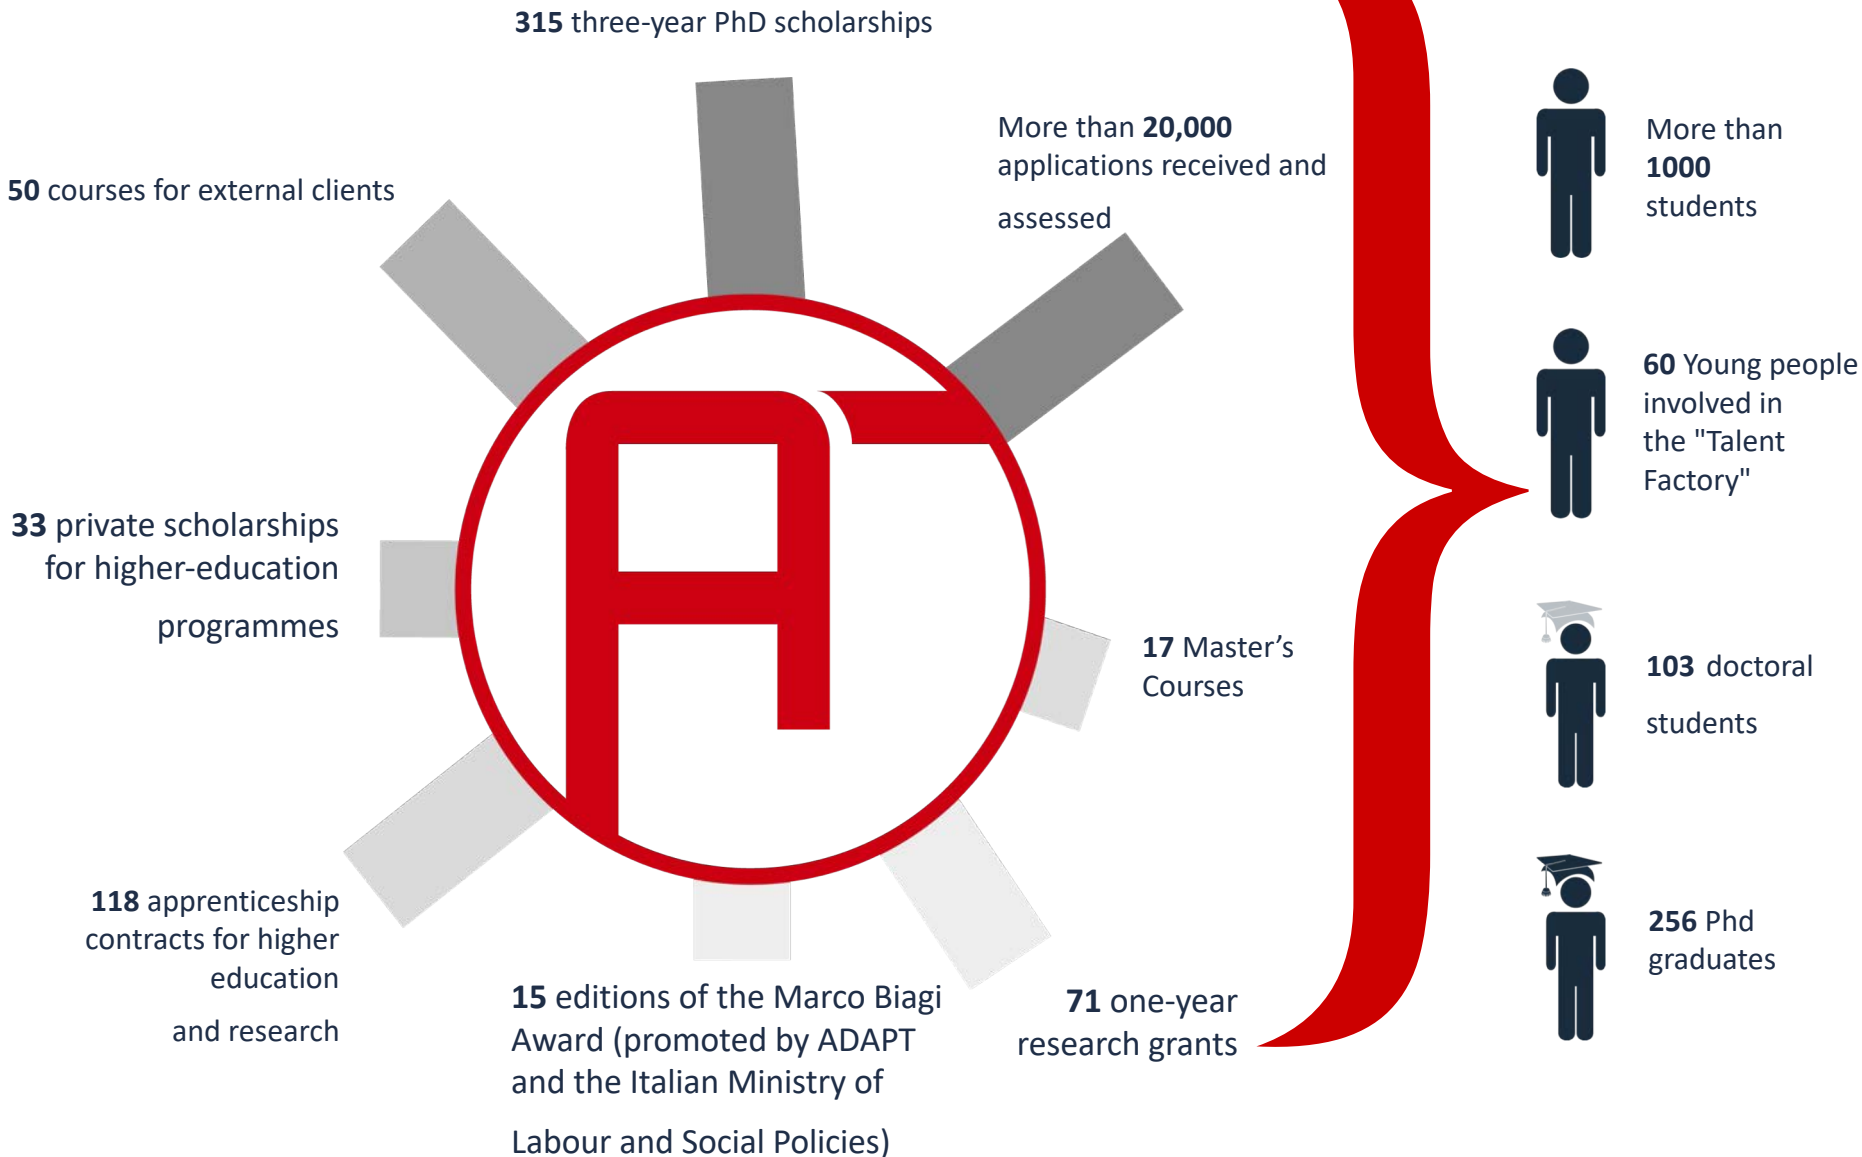

ADAPT prepares people for the following careers

University 4.0

By challenging the traditional approach to university education, ADAPT promotes **work-based learning** by means of **internships**. ADAPT's distinctive trait is that of moving beyond traditional lectures; individual educational paths are set up teaching students how to **deal with routine problems** at work and helping them develop their own **professional profile**

ADAPT recruits outstanding high school students from all over the world that could take part in our educational programmes as well as in in-company internships promoted by the School, providing guidance in understanding individual professional inclinations. Those admitted to the programme are eligible for scholarships, (total or partial) coverage of tuition fees, have access to our placement services, and have the opportunity to be involved in our national and international research projects under the supervision of senior researchers. For further information, please contact selezione@adapt.it

A black and white photograph of a large, diverse crowd of people, likely at a conference or seminar. The people are seated and looking towards the front of the room. The image is overlaid with a large, bold, red logo that reads "ADAPT". Below the logo, the website address "www.adapt.it" is written in a smaller, red font. The background shows architectural details of a large hall, including columns and decorative elements.
